Mental Research Institute

Why Give to MRI?

Why MRI Matters

For 50 years MRI has been actively involved in the community, research, and devising new theoretical approaches to the field of interactional therapy.

We:

- Train thousands of professionals with our continuing education programs
- Run two clinics, The Brief Therapy Center and Strategic Family Therapy Center
- Offer services to low-income individuals and families in English and Spanish
- Have published more than 60 books by MRI authors
- Have completed more than 60 research projects involving more than 45 researchers
- Have been awarded 12 NIMH grants
- Provide specialized services to train agencies in Brief & Strategic Therapy
- Offer residents a chance to view live cases, shadow our staff, and watch taped materials from our vast archives
- Train the next generation of interactional therapists.

As a non-profit we need your support now, as ever, to continue the journey we embarked on 50 years ago. Please support our endeavors by making it possible for MRI to continue our tradition of service. Together we can keep MRI's vision and longevity a mainstay in the realm of therapy, and beyond.

Donations are gladly accepted.
